WISCONSIN

FORWARD

Dear Friends:

Last year we put out our first catalog and think it was a real success. This year we are adding some and are also taking some out.

We had to change the name of our 1946 introduction.

It is a pleasure for us this year to send our 1947 catalog in which we list about 300 different varieties. We have a large number of old varieties and also a lot of new ones.

Our plants and bulbs are state inspected each year. Our bulbs are treated before they are put in storage in the fall for the winter, and again treated before planting in the spring.

The state inspector told us our fields were one of the cleanest and could compete with any field in the state.

1946 INTRODUCTION

JOYCE B.—This is our 1946 introduction that we called Connie. The seedling number 40-316. We had to change the name because the name **CONNIE** has already been used. So we chose **JOYCE B.** It opens five to six blossoms on a 60 inch stem with a 24 in. flower head with 18 to 20 buds. The florets measure from 5½ to 6½ inches. They are a nice shade of salmon pink. We like the color very much. The spikes are good, strong and straight. A good proagator and germinator.

TERMS AND PRICES — Our 1946 introduction JOYCE B, is priced at per. large bulb \$2.00, medium \$1.50, small \$1.00 and \$0.25 for bulblets each.

Any order that amounts to \$20.00 or more will receive a bulb or Joyce B. gratis. (the description is found above.)

Retail order of \$2.00 and up prepaid, 10 bulbs sold at the 8 times the single rate of one kind. The 2-for .15c bulbs are 10 for 60c of one kind. We have a whole sale rate of some kinds.

We will give good count on all orders. And there will be no orders excepted after April 15.

Cash is required with all orders.

We thank you,

LELANI GARDENS

LELANI — Means Heavenly Flower.
